PROFILE

I graduated 110/110 cum laude from Sapienza University of Rome, with first-author research in speech-driven HCI published at ACM ICMI 2026. What defines me is what I build: full-stack apps, blockchain systems, and applied AI, tested across 80+ hackathons with 30+ podium finishes and \$100,000+ in prizes won. Now seeking a research-driven M.S. in Computer Science.

EDUCATION

B.Sc. Applied Computer Science & AI

Sapienza University of Rome

📅 2023-2026

♥ Rome, Italy

- Final grade: 110/110 cum laude, final GPA 27/30
- Thesis: *A Multilingual Speech-Driven Semantic Input Module for Indoor Navigation Systems*, advised by Prof. Emanuele Panizzi

High School Diploma (Science & Mathematics)

Dolapoğlu Anatolian High School

♥ Turkey

- Ranked 3,783/2.38M in Türkiye's national university entrance exam

PUBLICATIONS

Gokhan Ceylan, Gabriella Trasciatti, and Emanuele Panizzi. 2026. **A Multilingual Speech-Driven Semantic Input Module for University Indoor Wayfinding**. ACM ICMI Companion '26. doi.org/10.1145/3776591.3832512

EXPERIENCE

Developer & Thesis Researcher, Gamification Lab

Sapienza University of Rome

📅 Nov 2025-Present

♥ Rome, Italy

- Offline, multilingual speech-driven input module (Flutter) for NavIndoor's search interface; 243-room repository. Result: first-author ACM ICMI 2026 paper.

Freelance Web Dev · Enterprise Intern · Community Director

Bionluk / QNB Finansbank / Ar-Ge Student Community

📅 2019-2022

- Multilingual SME sites (Bionluk), enterprise docs (QNB Finansbank), R&D initiatives as Director (Ar-Ge Community).

SELECTED PROJECTS

NavIndoor - Bilingual (EN/IT) marketing site for Sapienza's indoor-navigation app. *Astro*

Eterna - Autonomous AI agents persisting on-chain via Amadeus + Arweave. *Next.js, Amadeus, Arweave*

RoomTab - Separates AI context extraction from a deterministic settlement engine so bill-splitting math never hallucinates. *Next.js, Gemini 2.0 Flash, Opik*

AWARDS

80+ international hackathons attended · 30+ podium finishes · \$100,000+ in cash prizes won

TRON Grand Hackathon (S3-S7):

NatureForetold (×2), MetaVotePoll, MusiCoinCity (×2), AurorAqua, DreamVerser, Triton, QuestArcade, TronPixels, IdleTron

Other Awards:

Eterna, Amadeus Genesis Hack - Winner
MusiCoinCity, EDU Chain Hackathon - 5th Place

Intertech Metaverse Hackathon - Winner
HSBC Engagement Challenge - 2nd Place (National)

Arçelik Innovation - 3rd Place

Hack4MMO - 2nd Place

KFC Ideathon - 2nd Place

Malware Arena - 3rd Place

SKILLS

Full-Stack Development

Blockchain App Development

Smart Contracts

AI/LLM Integration

React / Next.js

Node.js

Flutter

Solidity

REST APIs

ERASMUS+

Active participant in EU youth programs across **Lithuania, Italy, France, Romania, Poland, Norway**.

Topics: inclusion, civic tech, sports, environmental awareness.

VOLUNTEERING

TEMA - Climate + sustainability outreach (ongoing)

Youth Eurasia - Intl. youth development (2022-2023)

BEST Ankara - University tech community (2021)

INTERESTS

Gamification in real systems, HCI, behavior-focused UX, LLM-powered interfaces, civic tools, small AI experiments in daily workflows
